KEY RESPONSIBILITIES:

- Planning and designing application developments to ensure the platform operates efficiently, effectively and in-line with the business's and our Client's requirements.
- Designing solutions and developments related to the on-going support, maintenance, fine-tuning and enhancement of this highly customised platform.
- Interacting with all key stakeholders – communicating effectively on functional requirements as well as providing regular updates on progress.
- Leading a team of off-shore Salesforce developers responsible for delivery of all platform developments.
- Carrying out code reviews to ensure a high quality of development is maintained.
- Mentor all developers under area of responsibility.
- Carry out development of key/urgent projects within the platform's development pipeline.
- Test developments in advance of release, and be involved in the deployment of updates, developments and upgrades to all elements of the platform.

SKILLS, EXPERIENCE AND CERTIFICATION REQUIRED:

- Project and general management experience gained in an IT development environment
- 8+ years work experience in Salesforce.com Projects. Or can demonstrate being an integral part of delivering at least two end-to-end Salesforce.com implementation projects.
- Excellent Zuora billing system knowledge alongside Zuora integrations with Salesforce.
- Good implementation knowledge in Web Services (REST / SOAP) as well as CSS3, JQuery, Java Script and Bootstrap
- Expertise in Salesforce.com functionality and features.
- Working knowledge of subscription fulfilment systems.
- A track record in producing high quality deliverables within agreed timelines.
- Excellent communication skills
- Must have worked on the following Salesforce features at an advanced level:
 - Sales Cloud – Service Cloud – Community Cloud
- Must have the following Salesforce certifications
 - Salesforce Certified Platform Developer I & II
 - Salesforce Certified Platform Administrator & Sales Cloud Consultant
- Degree level qualification in IT/Computer Science Eng.
