

Transformation & BPM Coordinator

Salary: Competitive + company benefits/in-house training and development

Location: Hatfield (3 days), 2 days WFH

Air Business is undergoing a significant transformation, taking bold strategic moves to ensure we continue to deliver as a sustainable, profitable business. As part of this process, the 'Business Process Management' team plays a pivotal role in aligning organisational change with transformation objectives and ensuring effective delivery across the company.

This position, reporting to the Transformation & Business Process Manager, will be responsible for the development, refinement, and implementation of new Target Operating Models encompassing personnel, processes, and technology.

Experience

- Strong understanding of business processes within the relevant industry, supported by extensive experience in a similar role.
- Proven expertise in process mapping; proficiency with Microsoft Visio is highly desirable.
- Experience in delivering Lean and/or Agile methodologies; professional qualifications in Project Management, Lean (Green/Black Belt), and/or Agile are advantageous (or willingness to obtain).
- Exceptional analytical skills with the ability to translate data into actionable insights.
- Excellent communication skills, capable of presenting complex concepts clearly and appropriately for different audience

Apply now to be part of our transformation journey and drive meaningful change.
